National Electronic Attachment, Inc. and Trojan Professional Services, Inc. Announce Strategic Relationship

Atlanta – July 22, 2008– National Electronic Attachment, Inc. (NEA) announced today that Trojan Professional Services, Inc. has completed an interface which seamlessly enables dental offices to transmit dental attachments – including x-rays, perio charts, intra-oral pictures and other documents required to process claims – to NEA’s repository, where they are stored securely for quicker, more efficient review by Payors. *FastAttach™* speeds up processing and eliminates the cost of duplicating and mailing x-rays or hard-copy documents.

“We are very excited that Trojan Professional Services has built an interface with our *FastAttach™* system, which will streamline the processing of electronic claims with attachments for our dental provider and our payor clients,” said David Fincher, Vice President Sales at NEA. “Adopting this technology is a nice enhancement to our dental product offerings for our mutual customers.”

"By working with *FastAttach™*, our clients will have another tool available to make their offices more efficient while reducing costs and paper associated with filing dental claims," states Mark Dunn, CEO of Trojan professional Services, Inc.

About Trojan Professional Services, Inc.

Trojan provides several exceptional services supporting dental office staff to reduce time spent on non value-added tasks, resulting in more time for patient care and revenue producing activities.

About National Electronic Attachment, Inc.

NEA, *The Recognized Leader In Electronic Attachments*, offers systems designed to make insurance attachment submissions and processing as easy as possible for the Patient, the Provider and the Payor. After processing millions of electronic attachments, NEA remains today as the largest collection of brainpower and knowledge in the area of electronic attachments. For more information on how to use the NEA *FastAttach™* system, visit the NEA Web site at www.welcometonea.com
