NATIONAL ELECTRONIC ATTACHMENT, INC. AND QUALITY SYSTEMS, INC.
ENTER INTO CHANNEL PARTNER AGREEMENT

ATLANTA—Aug. 25, 2009—National Electronic Attachment, Inc. (NEA) announced today that it has entered into a Channel Partner agreement with the Dental Division of Quality Systems, Inc. (QSI), a developer and provider of computer-based practice management, medical records, and e-business applications for medical and dental group practices.

Under the agreement, the QSI Dental Division will offer NEA's *FastAttach*™ functionality along with specific QSI software enhancements to its dental clients, affording them the opportunity to process electronic claims more quickly and efficiently.

"We are very pleased to align with Quality Systems and its dental division to offer our innovative services. The QSI's Practice Management Solutions Dental and Open-Item are some of the most sophisticated software programs available in the marketplace today and which enable dentists across the country to fulfill their quests to completely automate their practices. NEA is proud to provide electronic attachment services to clients of QSI's Dental Division," said Tom Hughes, CEO of NEA.

"The relationship we have forged with NEA will allow us to market the *FastAttach*™ system to our clients, offering them an enhanced option for the submission of electronic claims and the transfer of the documents and x-rays that support them. This is a significant benefit for dental offices since *FastAttach*™ helps to accelerate claim processing and eliminates the need to duplicate and mail attachments. We believe our clients will see great benefit from using the *FastAttach*™ system in the reimbursement process, which they can now seamlessly acquire through the QSI Dental Division," said Kathleen Noll, Vice President, Technical Marketing and Implementations of QSI.

About NEA

National Electronic Attachment, Inc., *The Recognized Leader In Electronic Attachments* for the health-care industry, is offering systems designed to make insurance attachment submissions and processing as easy as possible for the patient, the provider and the Payor. For more information about NEA and how to use the *FastAttach*™ system, please visit www.nea-fast.com.
