Switch to *FastAttach*® and save nearly \$10 per attachment!

How much can your practice save by going paperless with *FastAttach*?

The cost of submitting paper attachments is much more than just paper, ink, and postage. The labor required for processing paper attachments and managing denials can result in hours of wasted time. With *FastAttach* you can save time, money and headaches by submitting your attachments electronically to over 750 payers/health plans and you can do it for *only \$34 per month (month to month) or \$384 if you select an annual subscription!**

*In addition to monthly or annual subscription fees, a *FastAttach* subscription requires a one-time \$200 registration fee for implementation and training and a \$59 Annual Fee for data storage and maintenance. Registration fee is not included in these estimates. Costs are estimated based on available data from various industry sources and independent dental practice research. Actual figures will vary by practice. NEA makes no guarantee of cost savings and provides this information for educational, comparison purposes only. We encourage practices to measure their actual costs and compare against the NEA *FastAttach* data for accurate comparisons.
