

What is *FastAttach*?

FastAttach from NEA Powered by Vyne is a compliant, HITRUST CSF Certified solution for submitting electronic claim attachments and supporting documentation required for claim adjudication. *FastAttach* eliminates manual, paper-based processes related to requests for supporting claim documentation and enhances denial tracking for dental providers. Say “goodbye” to claim processing delays and get reimbursements flowing with *FastAttach*.

Improve claim adjudication times by electronically transmitting:

- X-rays
- Perio charts
- EOBs
- Narratives
- Pre-treatment estimates
- Secondary insurance information
- Any other documentation required to adjudicate a dental claim.

It automatically populates claim data eliminating the need for time consuming manual data entry. *FastAttach* is an encrypted, Internet based software and meets industry security requirements. Additionally, *FastAttach* interfaces with most major dental practice management systems and clearinghouses to further streamline your practice’s workflow.

How does *FastAttach* work?

FastAttach is easy to setup and use. Once a request is received for additional documentation, the user simply needs to import, upload, scan or capture the image and attach it to the electronic request. *FastAttach* supports the widest variety of image acquisition

methods in the industry including: screen capture, file import, scanner and secure mobile device capture through our patented **FastKapture** app for iOS® and Android®.

Easily attach X-rays or other required supporting documentation.

Once the image is captured in *FastAttach*, the user simply transmits the image to the NEA repository. NEA immediately sends a report back to the practice with an NEA Attachment Tracking Number for each file. The user places the NEA Tracking Number in the remarks or NTE section of the claim and sends the claim electronically through their claims clearinghouse.
