# Capture & Transmit Images using the *FastKapture*® App

## What is the *FastKapture* app?

Whether you need to send dental records or radiology images to a dental plan or payer, NEA has an easy way to facilitate more secure file capture and transmission via your tablet or mobile device. The *FastKapture* app is a compliant, patented mobile device application for use with the *FastAttach*® electronic claim attachment software.

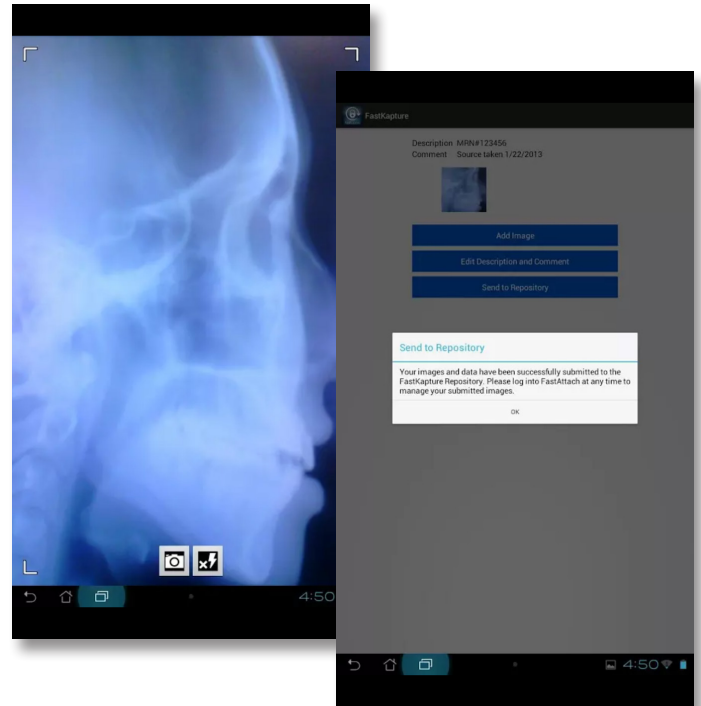

The *FastKapture* app simplifies the task of dental image capture and transmission with a safe, easy-to-use smartphone application. This free mobile app allows you to use the camera on your portable device to capture and upload indexed dental images and documents directly to the *FastAttach* software. Images are NOT stored on your mobile device, rather uploaded directly into the *FastAttach* application.

## Seamless integration with *FastAttach* software

The *FastKapture* app works seamlessly with the *FastAttach* software to offer another convenient method for securely capturing and transmitting documentation. Even if your office hasn't gone digital yet, you can still use the *FastAttach* service by simply downloading the *FastKapture* app for your image capture. Best of all, images captured using the *FastKapture* app are not stored on your mobile device, eliminating the risk of compromised protected health information.

## The *FastKapture* app allows you to:

- Capture, index and transmit documents and images from your mobile device
- Provide secure document and image capture and transmission
- Eliminate the need for a scanner

- Improve your revenue cycle
- Access images online 24/7 through your existing *FastAttach* account

## Experienced customer support

If you have any questions about the *FastAttach* software or *FastKapture* app, NEA's experienced support team is ready to help. We provide prompt, courteous service including best practice guidance on how to simplify document capture and image review.

- Skilled implementation and support teams
- Unlimited customer service and support
- Online chat support

Download the *FastKapture* app from the Google® Play® Store or App Store for your Android® or Apple® device.
